As they approach the commonwealth from the east they will not be met by a Democracy which, in its opposition to polygamy, is driving to the Republican party of Idaho 20,000 votes as a starter. Instead, through a vicious supreme court decision, they will meet a Mormonized Democracy whose leaders are crawling on their bellies to the destruction of their vest buttons, in imitation of that system of politics which gave Idaho a Gooding twice and followed it up by giving it a Brady, a Chamberlain, a Lansdon and a McDougall.

They will observe this Democracy entirely divorced from principle and cager to place sacred constitutional provisions, the idols of the framers of that document, on the auction block for sufficient votes to elect a governor this fall.

They will meet a Democracy doing mothing to expose the breaches of trust by this Republican state administration, lest those revelations might defeat for renomination the present chief executive. Governor Brady, whom they believe cannot stand before the great jury, the people, in the approaching state election to be held in November.

They will observe their own party leaders frantically chasing after new gods heretofore unknown to Republican party platforms or campaigns in the "Gem of the Mountains," leaves entirely foreign to those which they have been discussing at the seat of national government.

They will neet their Republican governor, their Republican speaker of the house and their Republican state chairman all in the throes of a bitter contest against each other for the nomination for governor, and their governor and expovernor leading a prohibition campaign that would have done great credit thirty-two years ago to a St. John or today to a Carrie Nation.

Sitting in Sackcloth.

These two able senators will find a cogont force of the Republican party sitting in sackcloth and ashes because of their refusal to follow in the wake of Governor Brady and ex-Governor Gooding in their plan to gain political power through the injection into Republican party politics of state-wide prohibition, and if I err not from an occult observation from without, they will find the rank and sile of the southeastern Idaho stone wall vote. Instructed from Utah to support these leaders in their alliance with the preachers that polygamy may be overshadowed in Idaho by prohibition.

They will observe a vast sum of wealth being used by men high in places of state to cover up the deficiencies in point of ability, and errors in public records they have made in their "game" as the trusted suardians of the sacred legacies of the people.

pense of the donations to the rising generations.

The legal head of the executive department of the state government has proven a traitor to the sacred assets of the state school fund, and should they desire, they will find his mame entered on record in a civil case, in defense of thieves who had already defrauded lidaho's state school fund out of thousands of dollars.

These are serious charges, well worth the distinguished consideration of distinguished senators.

If these cancerous growths are not pruned, if the knife of destruction is not laid at their roots, Idaho will not be a wholesome state in which to live, much less a state that will home anyone to represent in the highest legislative body of the country.

# S.S. FOR SUMMER

Smooth, healthy skins are a rarity in Summer. Most persons are annoyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these acids and humors in the sensitive membranous flesh which lies just beneath the outer skin or tissue covering the body. This acrid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin trouble the blood must be freed from all acids and humors, and for this purpose nothing equals S. S. S. This great blood purifier goes down into the circulation and completely removes every particle of impurity, enriches the blood and in this way permanently cures skin diseases. S. S. S. cures, because it purifies the blood and allows it to nourish, soothe, and soften the skin instead of irritating it with fiery acids and humors. Book on Skin Diseases and any medical advice free.
